SUBJECT INDEX, VOLUME 45

Adrenal
  steroids in urine, 10
  and liver glycogen, 21
  histochemistry during regeneration, 42
  and thyroid, 75
  and liver regeneration, 91
  and anti-adrenocorticotropin, 96
  and infections, 135
  and nitrogen metabolism, 143
  and dietary protein, 153
  and protein catabolism, 170
  and vitamins, 188
  and immunity, 204
  and water balance, 273
  and cytolysis, 314
  adrenotrophin of blood, 335
  and lymphocytolysis, 351
  stress and eosinophils, 403
  relationship to pituitary, 514
  effect of testosterone upon, 564
  and plasma amino acids, 605
  and fat, 609
Alloxan
  effect on serum cholesterol, 57
Ascrobic acid
  of adrenal cortex, 75
  excretion of, 188
  content of pituitary, 314
  and diabetes, 344
Assay
  of adrenocortical steroids, 10
  of progesterone, 71
  of estrogens, 86
  of adrenotrophin in blood, 335
  of adrenal steroids in newborn, 430
  of growth hormone, 455
Association Notices, 110, 210, 350, 449, 450, 547, 548, 630, 631

Behavior
  estrus in hamsters, 29
  in male hamsters, 211
  desoxycorticosterone and estrus, 558

Blood
  adrenals and lymphocytes, 351
  adrenals and eosinophils, 403
  pressure and desoxycorticosterone, 435
  iodine and oxygen consumption, 485
  amino acids and adrenal and thyroid, 605
Book Reviews
  The Thyroid and Its Disease, 446
  Physiology of the Uterus, 630
Bone
  phosphatase of tibia, 129
  thyroid and ossification, 389
  and growth hormone, 455

Diabetes
  and serum cholesterol, 57
  and dehydroascorbic acid, 344
  and hyaluronidase, 348
  and pituitary, 627
Diet
  underfeeding and thyroid, 148
  protein and corticotrophic effect, 153
  protein and anemia, 159
  vitamins and their excretion, 188

Enzymes
  plasma pseudocholinesterase, 108
  and testosterone, 113
  alkaline phosphatase and growth hormone, 129
  oxygen consumption of ovary, 195
  anerobic glycolysis in ovary, 222
  and growth hormone, 267
  hyaluronidase in diabetes, 348
  phosphatases and growth hormone, 480
  of testis, 491
  nitrogen metabolism of tissues, 596
  hyaluronidase and testosterone, 622
Estrogen
  excretion after CCl_4 poisoning, 1

conjugated as sulfates, 86
effect of Lithospermum upon, 120
effect on phosphatase of uterus, 231
and avidin-biotin of oviduct, 451
and menstruation, 537

Fat
and growth hormone, 207
mobilization and pituitary, 305

Glycogen
of liver after adrenal hormones, 21
of liver during adrenal regeneration, 42

Histochemistry
of adrenal, 42
of tibia after growth hormone, 129
of uterus after steroids, 231
growth hormone and phosphatases, 480
of adipose tissue, 609

Immune reactions
anti-adrenocorticotrophin, 96
and adrenals, 204
origin and distribution of anti-gonadotrophin, 549
refractoriness to adrenocorticotrophin, 571
Insulin
and serum cholesterol, 57
and protein catabolism, 170
Iodine
and goiters in chicks, 208
uptake and morphogenesis, 242
uptake and antithyroid compounds, 296
antigoitrogenic effect of, 375
radioiodine and thyroid damage, 464
metabolism and oxygen consumption, 485
inhibition of thyroid, 504

Kidney
enzymes after growth hormone, 267
water balance and adrenal steroids, 273
effect on desoxycorticosterone on, 435
phosphatases and growth hormone, 480

Lactation
glycolysis in ovary during, 222
factors influencing, 284
Liver
and estrogen excretion, 1
glycogen and adrenocortical steroids, 21
glycogen during adrenal regeneration, 42
regeneration and pituitary, 91
oxidase and dehydrogenase activity, 267
inactivation of antidiuretic hormone, 378
phosphatases and growth hormone, 480

Muscle
effect of testosterone upon, 113

Ovary
anti ovarian substances, 120
and FSH, 195
anerobic glycolysis in, 222

Pancreas
and serum cholesterol, 57
Parabiosis
reproductive system after, 33
Pituitary
effects on regeneration of liver, 91
and plasma cholinesterase, 108
effect of Lithospermum upon, 120
growth hormone and tibia, 129
and dietary protein, 153, 159
and fat metabolism, 207
effect on liver and kidney enzymes, 267
and fat mobilization, 305
ascorbic acid content, 314
adrenotrophin of blood, 335
antidiuretic hormone inactivation, 378
stress and eosinophils, 403
and bone growth, 455
and phosphatases, 480
relationship to adrenal, 514
refractoriness to adrenocorticotrophin, 571
effect of progesterone upon, 581
and fat, 609
and diabetes, 627
Placenta
absence of thyrotropin and adrenotropin in, 178

Pregnancy
excretion of estrogen sulfates, 86
glycolysis in ovary during, 222
Progesterone
and estrus in hamsters, 29
assay of, 71
and testicular changes, 346
pregnanolone and spermatogenesis, 370
and ovulation, 581

Radiation
and ketosteroid excretion, 383
Reproductive system
and thyroxine, 33
avidin-biotin complex of oviduct, 451
effect of desoxycorticosterone upon, 558
ovulatory mechanism, 581

Spermatogenesis
maintenance by pregnenolone, 370

Testosterone
and muscle respiration, 129
and male behavior, 211
effect on salivary glands, 250
relation to growth precocity, 544
and adrenal, 564
and hyaluronidase, 622
Thiouracil
and underfeeding, 148
and exophthalmos, 345
effect on ossification, 389
and fat, 609
and metabolism, 624
Thyroid
and reproduction, 33
thyroidectomy technic, 64
and adrenal cortex, 75
activity of synthetic thyroproteins, 82
and underfeeding, 148
and iodine in chicks, 208
morphogenesis and iodine uptake, 242
effect on salivary glands, 250
antithyroid compounds and iodine uptake, 296
exophthalmos, 345
antigoitrogenic effect of iodine, 375
and ossification, 389
and metabolism, 396
pathology and radioiodine, 464
inhibition by iodide, 504
and blood amino acids, 605
and metabolism, 624

Urine
adrenocortical steroids in, 10
estrogen sulfates in, 86
ketosteroids after x-irradiation, 383
Uterus
effect on steroids on phosphatase of, 231
menstruation and estrogens, 537
